PROFESSIONAL SUMMARY

Operations and quality professional specializing in data analysis and AI/ML-driven interaction analytics. I build quality-management programs from the ground up and turn conversation and performance data into training, scripting, and executive strategy — recently scaling evaluation output from ~6,000 to 20,000+ assessments per year while reporting findings directly to C-suite leadership. Subject-matter expert in NICE CXone and Interaction Analytics. My edge: I am also a published Apple developer who personally designs and builds the AI, analytics, and automation tools most analysts can only configure.

CORE SKILLS

Analytics & Data: Interaction Analytics, machine-learning models, sentiment & trend analysis, business intelligence, data visualization, root-cause analysis, KPI reporting

Quality & Operations: QA program design, scorecard development, SOPs, operational audits, process & continuous improvement

Platforms & Tools: NICE CXone, NICE Interaction Analytics, Zenoti, Microsoft Excel (certified), Microsoft Office Specialist, SharePoint, QuickBooks, Oracle

Software & AI Engineering: Swift/SwiftUI, Python, TypeScript/Node.js, Rust; iOS & macOS apps, local LLM inference, agentic tool-calling, REST APIs

Leadership: Team coaching & training (110+ staff/month), C-suite presentation, cross-department coordination, recruiting & onboarding

PROFESSIONAL EXPERIENCE

PAC Operations Specialist — Sono Bello

Jul 2025 – Present

- Own quality operations across the Patient Acquisition Center, tying interaction quality to consultation, booking, and transformation rates; report to the VP of Project Management and present strategy to C-suite leadership.
- Serve as subject-matter expert on NICE CXone and Interaction Analytics, configuring and iterating tooling for QA automation, sentiment tracking, and performance flagging.
- Run deep analysis with Interaction Analytics and machine-learning models to surface trends, unaddressed patient concerns, and regional operational gaps — translating findings into scripting, training, and process improvements.

Quality Assurance Ambassador — Sono Bello

Oct 2021 – Jul 2025

- Built two quality-management programs from the ground up, growing annual evaluation output from ~6,000 to 20,000+ assessments.
- Implemented and operationalized NICE Interaction Analytics for automated quality monitoring, sentiment tracking, and trend identification.
- Designed scorecards and guidelines for the Consult Specialist and Patient Ambassador teams; ran cross-location operational audits using IC and Zenoti reporting.
- Coached 110+ employees monthly and presented QA insights to C-level executives.

Patient Ambassador / Consult Specialist — Sono Bello

Apr 2021 – Sep 2021

- Managed surgical and consult calendars for three large surgical centers, tracking show-rate, cancellation, and sold-rate KPIs with strict attention to health-screening accuracy.

Earlier: Store Manager, GoEbits (2020–21) · Assistant Manager, Cash America (2019–20) · Account Coordinator, Reedhein & Associates (2016–17) · Lead Customer Service Specialist, Nordstrom Direct (2014–16).

SOFTWARE & AI ENGINEERING — INDEPENDENT DEVELOPER

ShouldI: Drunk Mode — Published iOS App (*Swift, SwiftUI*) — Designed, built, and shipped a paid, privacy-first app live on the App Store across iPhone, iPad, Mac, and Apple Watch; Apple Screen Time APIs, on-device challenges, zero data collection.

Hearth — macOS Local-AI App (*Swift, Apple MLX*) — Notarized menu-bar app running LLMs fully on-device with chat, image generation, voice, and tool-calling; from-scratch OpenAI-compatible HTTP/SSE server and real-time tool-call parsing for unreliable local models.

Clarity — Self-Hosted Programming Language (*Clarity, Python, Zig*) — From-scratch language whose full toolchain (lexer, parser, interpreter, optimizing bytecode VM) is written in the language itself; companion Zig micro-kernel / experimental OS in progress.

PacketMonkey — Protocol-Analysis Tool + iOS Companion (*Electron, Node, SQLite, SwiftUI*) — Cross-platform binary/protocol analysis tool with hex annotation, endian-aware decoding, capture diffing, and AI-assisted analysis on one shared backend.

EDUCATION

Academy of Art University — Multi-Media Communications (two years of study)

AWARDS

Growth Mindset Trailblazer Award — Sono Bello (2026)
PAC Impact Award Nominee — Sono Bello (2025)

CERTIFICATIONS

Apple Developer Program
NICE CXone Interaction Analytics (NCAP), 2024
Microsoft Office Specialist — Excel, PowerPoint, Word
QuickBooks
